PROFESSIONAL SUMMARY

Motivated B.Tech (Hons) student majoring in Data Science & Engineering (DSE) with a minor in Psychology. Passionate about Artificial Intelligence, Machine Learning and Data Analytics. Strong foundation in Python, SQL, Machine Learning and problem solving with hands-on academic projects.

KEY SKILLS

Languages: Python, SQL, HTML, CSS, Java, Arduino

AI/ML: Machine Learning, TensorFlow, Scikit-Learn, Deep Learning

Libraries: Pandas, NumPy, Matplotlib

Database: MySQL

Developer Tools: Git, GitHub, VS Code, Jupyter Notebook

Core Concepts: Data Structures & Algorithms, OOP, Data Analytics

PROJECTS

- **Stock Trend Prediction** - Python, CNN, LSTM
Utilized historical stock data and technical indicators using CNN & LSTM
- **Password Strength Analyzer** - Java
Developed a Java application to analyze password strength.
- **Fire and Smoke Detection** - Arduino, IoT
Developed a sensor based alert system using Arduino.
- **Blood Bank Management System** - HTML, CSS, JavaScript, Node.js, MySQL
Managed donor information and blood inventory using SQL.
- **Piezoelectric Floor Mat** - IoT, Electronics
Converted mechanical energy from footsteps into electrical energy.
- **E-Commerce Sentiment Analysis** - Python, NLP, Machine Learning
Developed a sentiment analysis model for e-commerce reviews.

EDUCATION

RV University, Bangalore

B.Tech (Hons)

Major in Data Science & Engineering (DSE)

Minor in Psychology

2024 - 2028

EXPERIENCE

Research and Content Team Member

Vyoma Club – RV University

- Collaborated with the research and content team.
- Assisted in content development and event activities.
- Worked effectively in a team environment.

CERTIFICATIONS

- Deloitte Australia – Data Analytics Job Simulation
- BCG – Introduction to Data for Decision Makers
- AWS Solutions Architect Job Simulation
- IBM SkillBuild – Computer Network Basics
- HackerRank – SQL (Basic)
- Nokia C2C

LANGUAGES

English • Kannada • Japanese (Elementary)
